

CattleWorks® Cattle Management Software

“...economical and easy to use.”

800-507-2902

www.cattleworks.com

- Provides Source and Age verification records
- Generate BQA Reports
- Analyze herd performance
- Identify cows that are not performing
- Track and report financial aspects of your cattle operation.

Includes software to view animal information on a Palm® Handheld!

CattleWorks is an economical and easy to use software package. Designed for beef producers, this package assists in managing a small to medium size cow/calf or stocker operation.

CattleWorks provides complete record keeping for each individual animal plus the entire herd. It then takes simple record keeping a step further and provides analysis of cow/ calf performance and overall herd performance. CattleWorks also provides the framework for Source and Age verification documentation, Beef Quality Assurance documentation and individual animal ID records.

The intuitive layout of CattleWorks allows anyone regardless of their computer knowledge to take full advantage of all the benefits of the software.
